MAY, 15TH

UNIT 2 – CLASS 7

READING COMPREHENSION

A Software Developer's Story

I work for an international company that develops software for clients all over the world. Currently, I am working on a project with a team of developers from different countries. We are collaborating on a new software application that will be launched next quarter.

My Daily Routine

Every day, I check my emails and respond to any urgent messages. I also attend meetings with my team to discuss our progress and plan our next steps. Right now, I am writing code for a new feature that will be included in the software.

Past Project

Last year, I worked on a project to develop a mobile app for a client in Asia. I spent several months designing and testing the app's features. The client was very satisfied with the final product, and we received excellent feedback.

1. Read the texts and write the title in the right place.
   ➢ "A Past Project"
   ➢ "A Software Developer's Story"
   ➢ "My Daily Routine"

2. Match the vocabulary words from the text with their definitions:
   1. Collaborate To work together with others on a project or task
   2. Launch To introduce a new product or service to the market
   3. Feature A characteristic or function of a product or system
   4. Client A person or organization that pays for a service or product

   Definitions:

   - A person or organization that pays for a service or product
   - A characteristic or function of a product or system
   - To work together with others on a project or task
   - To introduce a new product or service to the market

3. Complete the following sentences using the vocabulary words:

The company will __launch__ the new software application next quarter.

The team is working closely with the __client__ to ensure the product meets their needs.

One of the key __feature__ of the software is its ability to integrate with other systems.

The developers will collaborate with the designers to create a user-friendly interface.

4. Identify the verb tense used in each of the following sentences:

1. I work for an international company.
2. Currently, I am working on a project.
3. Last year, I worked on a mobile app project.

PRESENT SIMPLE	1
PRESENT CONTINUOUS	2
PAST SIMPLE	3

VERB TO BE

He spent several monthes...

FUTURE

"The Evolution of Technology"

Technology plays a vital role in our lives today. Nowadays, people use smartphones and computers to stay connected and access information. The internet has become an essential tool for communication, education, and entertainment. In the past, people relied on newspapers and television for news and information. However, with the advent of social media, people share and consume information in real-time. In the future, technology will continue to advance, and we will see innovations like artificial intelligence, virtual reality, and the Internet of Things (IoT) transform our daily lives.

9. Choose the correct answer for each question:
✓ What do people use to stay connected and access information nowadays?

- Newspapers

- Television

- Smartphones and computers

- Books

✓ What was the primary source of news and information in the past?

- Social media

- Internet

- Newspapers and television

- Radio

✓ What is expected to happen to technology in the future?

- It will stagnate

- It will decline

- It will continue to advance

- It will remain the same

10. Answer the following questions:

1. How has the way people consume information changed with the advent of social media?

2. What innovations are expected to transform our daily lives in the future?

11. True or False

1. Technology plays a minimal role in our lives today. (True / False)

2. People relied on the internet for news and information in the past. (True / False)

3. Artificial intelligence is expected to be a part of our future technological advancements. (True / False)
